Africa Mradi Powering Local Innovation Project: A fireside chat with African hub managers

Africa Innovation Mradi

moz://a

We believe that Hubs are the foundation of African innovation communities. We have hubs within the AfriLabs network that have been in operation for over a decade. With this experience comes a wealth of knowledge which is critical to share to give upcoming hubs a headstart in becoming the kind of support structure that Africa's innovators need. To wrap up the year, we will bring together seasoned hub leaders from across the African continent to share their stories. We will seek to share lived experience in setting up hubs, building communities and catalysing ecosystems. Watch out for details on how to be a part of it.

Apply for the IDEA initiative program

Another opportunity is by a member hub - Nailab. They are looking for innovative solutions in sexual & reproductive health.

If you are in Kisumu, Homabay, Migori, Kisii, Nyamira, Siaya, Vihiga, Busia, Kericho, Bomet and Kakamega counties in Kenya and have a creative mind - as artists, entrepreneurs, techies and journalists - with great ideas to advance sexual and reproductive health across Africa, you should apply for the IDEA initiative program. It is a pilot initiative in Africa that aims to guide young people to co-create innovative solutions to meet challenges in sexual and reproductive health.

[Learn more and apply.](#)

Application deadline: 9th December 2022

The poster for the IDEA initiative program features the IDEA logo at the top right. Below it, the text reads "Applications are open" in a large, bold font. Underneath, it says "Sexual reproductive health innovation bootcamp." The location is listed as "Western Kenya" and the deadline is "December 9, 2022". A prominent red button with a white play icon says "REGISTER NOW". The poster also includes several circular images showing people in various settings, and logos for "Planned Parenthood", "GLOBAL", "nailab", and "MILLI". The bottom of the poster has a decorative border with a repeating geometric pattern.

Be a part of ISN's 4th Annual Gathering in Lagos!

Innovation Support Network (ISN), the network of over 120 tech innovation hubs spread across 25 cities in Nigeria is hosting the 4th edition of its Annual Gathering on the 8th of December 2022. The event will be held at the Landmark Events Centre in Victoria Island, Lagos with the theme "Collaboratively Creating A Sustainable Hub Ecosystem". This year, the Digital Transformation Centre Nigeria (DTC Nigeria) of GIZ and NITDA are strategic partners of the event, alongside AfriLabs and others. AfriLabs Executive Director will also be speaking. [Register now to attend.](#)

The poster for the ISN 2022 Gathering features a green and orange color scheme. The main text reads "THEME COLLABORATIVELY CREATING A SUSTAINABLE HUB ECOSYSTEM" in white and orange. Below this, it says "8TH DECEMBER 2022" and "LANDMARK CENTRE, VICTORIA ISLAND, LAGOS". A large green circle on the right contains the text "THE ISN 2022 GATHERING". The background shows a network of nodes and lines, suggesting a digital or interconnected theme.
